

Louise O'Brien – Greyhound Box Ltd

Presentation

Investing in your business through the Resource Energy fund will have a big impact on the following

- Investors in People
- ISO14000
- Company Profit

IIP – Creating a good working environment through investment in lighting, heating etc. encourages employee engagement and higher levels of performance. It shows commitment from an Employer but also has a positive impact on the reduction of illness i.e. headaches or cold factory conditions

ISO14000 – Continuing our commitment to the environment through energy saving schemes and reduction in usage. Installation of lighting using less energy, ceramic heaters using less than gas heater. Compressor less wasted air and more efficient equipment.

Company Profit – After initial investment Increase profit through reduction in electricity & gas bills, more output due to creation of comfortable working environment and less absence.
